Currently studying for C & G in Felt-making.

Artwork

Over the past 10 years textiles, weaving and felt-making have taken over from painting as mediums in which I can still convey my love of the North Wales coast and sea. The felts vary from soft dyed Merino to natural UK fleeces incorporating coastal finds: driftwood, slate, sea-washed glass, rust and stones. The medium lends itself to 'painting' a picture or to creating three-dimensional earthy and textural shapes.
